Wine Law

Jean-Pierre Karsenty, founder of JP Karsenty in 1955, has made wine law one of the historical activities of the firm.

At the beginning, the firm mainly worked for cooperative wineries (as well as unions and federations of cooperative wineries) and for wine merchants in the Languedoc region, assisting them on a daily basis and defending them before the courts.

Over time , JP Karsenty's expertise has strengthened and developed with a diversified clientele (ODG, inter-branch organizations, private wine cellars, cooperative groups, etc...) and has extended to all wine-producing regions.

The Wine Law team, headed by Nathalie Tourrette and Matthieu Chirez, has a wide range of skills and works in a cross-functional manner, if necessary, with the support of other divisions of the firm, which allows it to understand and manage various issues, both upstream and downstream of the wine world.

JP Karsenty is a member of the International Wine Law Association and the French Association of Rural Law.
